

app-titude

Honeywell's My Keypad iPhone™ App...Helps You to Close More Business, Increase RMR and Reduce Attrition.

My Keypad helps your sales force close more business, by providing one more compelling reason for prospects to invest in a security system right now.

Available free on Apple's iTunes® App StoreSM, My Keypad turns every iPhone and iPod touch® into a wireless keypad for Honeywell security systems.

Seamlessly integrated with the industry's broadest range of panels, sensors and communications options, My Keypad enables your customers to arm and disarm their system, receive alerts and view event-driven video clips and pictures*—wherever and whenever they want.

My Keypad is an exclusive new service of Honeywell's Total Connect, one of the most widely used web and mobile security services in North America. When it comes to aptitude, no one else even comes close.
